

CLOSER TO THE SKY

When the colours loose their meaning
Will the sun still cover me?
If above the stars are bleeding
Only dust my eyes can see

Last twilight
find me in this darkness
Take me with
heal my shattered dreams

Once fallen but
In my heart
I keep fighting
Aiming high
Closer to the sky

Where the rivers long for water
From another time and place
I feel the days are growing colder
In my mind, solitude, haunting haze

Last twilight
find me in this darkness
Take me with
heal my shattered dreams

Once fallen but
In my heart
I keep fighting
Aiming high
Closer to the sky
